ComSonics Named Exclusive Service Center for Multilink, Inc. Powering Products

Harrisonburg, Virginia - Power Supply manufacturer Multilink, Inc. of Elyria, Ohio has named ComSonics, Inc. as its exclusive warranty and non-warranty service provider. ComSonics will provide repair services to Multilink customers through a nationwide network of sales representatives.

Multilink customers will benefit from ComSonics' nationwide sales network as well as its strategically located regional repair facilities in California, Indiana and Virginia. ComSonics will arrange pick-up of product from customer locations and ensure expeditious turnaround by routing it to their nearest repair facility for servicing.

ComSonics Power Supply Technicians, who average over 12 years of seniority, have completed extensive training on Multilink products. These products include among others Black Hawk, Little Hawk and MP Plus power supplies.

In addition to repair services, ComSonics is a manufacturer of quality broadband test instruments and provider of contract electronic manufacturing services.

For this and/or additional information in electronic form, go to www.comsonics.com.
